Sanskriti University, Mathura

For Excellence in Life

"An essential component of higher education is Research and Development (R & D). The university has taken right steps in this direction by creating facilities for conducting research in different fields and also encouraging the students and faculty members to undertake research."

- SACHIN GUPTA
Chancellor, Sanskriti University

Sanskriti University a synonym for holistic quality education came into being in Sept. 2016, when the promoters decided to convert the Sanskriti Group of Institutions established in Sept. 2010 into a university. Sanskriti is proud of its Chancellor, who happens to be the youngest Chancellor of any University in India. Being young, the promoter brothers are full of creative and innovative ideas, owing to which several new initiatives and off beat ideas are implemented. Considering the demand for courses other than B.Tech, MBA etc, a decision to commence Indian medicine courses was taken. Besides, several other courses like Paramedical, Pharmacy, etc allied to medicine have been introduced. Achievements as regards enrollments as also placements of eligible students in reputed companies have been exemplary.

Under his keen eye, the University focuses on holistic development of students and chisels them into industry ready professionals. A delicate equilibrium has also been established between retaining our rich cultural heritage, while adopting best practices from all over the world. Within a short span of 2 years of its existence, the University has diversified and is now offering scholars exposure to an exciting multi-disciplinary and multi-cultural environment:

Endowed with the best intellectual capital, State of the art infrastructure, well stocked library, multi media equipments, smart class rooms, Sanskriti has carved a niche and is considered as the best upcoming university of the country. Association with Industry for placements, designing curriculum as well as for guest lecturers is another accomplishment.

Center of Excellence set up in association with MSME for imparting training in the latest technologies will go a long way in making students employable. Introduction of compulsory "Life Skills Courses" for all courses is ensuring that the students become professionals with ethical values.

The University has attracted students from 14 states of the Country. Beside, students from SAARC as well East African Countries are also adding to the cosmopolitan culture of the University, Extra Curricular, Co-Curricular as well as excellent facilities like Canteen, Gym, Yoga, indoor and outdoor sports make Sanskriti a place to study and make a career for aspiring students.
