Sanskriti University started teaching students via online mode in Mathura. Sanskriti University has undertaken series of proactive and remedial measures to further the cause of academic excellence.

In the light of the global pandemic of COVID 19 virus also known as CORONA, the academic delivery has been suspended in face to face mode at the University Campus.

The top echelons of Sanskriti University are committed to the cause of academic excellence, research, innovation, publication and allied activities.

All the faculty members were trained to conduct online teaching, learning and assessment by the Vice Chancellor Prof. Dr. Rana Singh and Dean of School of Engineering and Information Technology -Dr. Suresh Sangwan.

Faculty members were trained to conduct online teaching, learning and assessment using various technology enabled tools, techniques and gadgets.

The faculty members were given experiential teaching, learning and assessment exposure and expertise to use Google Classroom and Zoom Video conferencing tool.

All the faculty members were given hands on exposure towards the process of doing academic delivery and research through online mode.

The faculty members were also advised to ensure that the objectives and outcomes of the respective courses and units should be achieved in the process of online academic delivery.

All faculty members were advised to ensure that all the students are included in the online classroom and they should get the best teaching and learning experience in the process of online academic delivery.

The faculty members participated in the online teaching workshop wholeheartedly and enjoyed the deliberations and the proceedings of the workshop.

Faculty members were also advised to submit daily reports of all the online classes held along with the list of students who attended the session for marking attendance of the students.

The students' community was also delighted to experience the IT enabled process of teaching and learning from their respective residences in the tough times of global pandemic called Corona.

The parents of students expressed their happiness after experiencing the initiative of the university which was committed to provide online academic delivery during the tough Times of global pandemic.

The Head of the quality assurance department of the university said that they will take the feedback of the students about the process of online teaching learning and assessment.

Faculty members enjoyed the interactive model of academic delivery by leveraging Google classroom Zoom and SoundCloud.

The Deans and HoDs were advised to follow the guidelines given by UGC to ensure the coverage of course curriculum and also to accomplish the course learning outcomes by the alternative modes of learning.

Overall process of the academic delivery through online mode has been a grand success and the faculty members and the students have started participating and leveraging the technology mode of academic delivery.

We take this opportunity to extend our thanks and wish our heartiest congratulations to all the stakeholders of Sanskriti University for leveraging information technology infrastructure to provide online teaching, learning and assessment processes.
